supply & demand

According to studies from Grand View Research, the world wide CBD market was announced with 5.18 Billions USD. An annual growing about 16.8% between 2022 and 2030 is expected.

Demand

CBD is more requested than ever. Due to the amount of studies published by notable universities, acceptance of CBD is growing continuously as well as the popularity is rising high – which is reflected in the sales figures of recent years.

Consumers want CBD, demand is getting bigger and bigger. Everybody is talking about the green gold. Be the one who serve the market.

Royal Green Monkey

Supply

We offer you the opportunity to conquer this market together with us. You will not only get the best CBD products that are currently available on the German and European market, but also all the know-how on the subject of "CBD - distribution and legal".

But the best thing is: You start with your first own store. As soon as you have found a location, we can get started together.
